## TWO CATRIKE TRIKES FOR SALE: \$ 3,995 EACH

*“We have agonised over the sale of these two superb Trikes, but, my age (Mal) is forcing the sale. They “belong” touring our world, in the hands of a CYCLIST!!!”*

**NOTE: THE TRAILERS IN THE MAIN PHOTO ARE NOW INCLUDED.**

They have been substantially modified for long term touring. We used them to cycle through 18 countries between 2006 and 2009. They are relatively easy to dismantle, will fit in a standard airport bike box (*With a side “bulge”*). [SEE HERE](#)

Since 2009 they have not been used – They were dismantled, carefully packed and kept in storage. October 2018 they were taken out of storage - and – over time, refurbished and re-assembled. They will be “tuned” by us over a few hundred kilometres – IF ANY issues are found, they will be fixed.

### **SPECIFICATIONS:**

Catrike “ROAD” 2006 (Full specs of STANDARD trike here ([Specifications](#)))

### **THE TRIKE'S ARE SOLD WITH THE FOLLOWING (et. al.) MODIFICATIONS:**

#### **ROHLOFF HUB:**

Serviced every 5000km during our trip. Absolutely brilliant piece of machinery. Currently the 17 tooth cog is fitted – Some other cogs will be included.

#### **SCHLUMPF: 2.5 ratio**

“High Speed Drive” Another brilliant piece of machinery (fullspec's [HERE:](#)

#### **REAR RACKS:**

“Old Man Mountain” at over \$AUD 200.00 each – expensive but, quality when touring.

#### **EXTRAS:**

*We have not collated all extras that we hold at this stage, however, you will be welcome to them at **NO EXTRA COST** –we will list them when we quantify.*

One of the nice things about “Catrike” is their commitment to freely available generic parts. The bikes are fully ready to go on a tour as is.

#### **CONDITION OF TRIKES**

- 1.The trikes have been “powder coated” to colours similar to original
- 2.We manufactured mud guards and these will be supplied with the trike.(See [HERE:](#). Note the rear mudguards are not included but can be purchased at any good bike shop.
- 3.The mods to the seats you see (above link), using soft foam have been replaced. They increase the comfort exponentially. The neck rests were showing signs of wear and have been replaced.
- 4.The Schlumpf’s have been serviced (\$280.00) new bearings, new roller bearings, by “[QUANTUM BICYCLES](#)”. Arguably the BEST cycle shop in Perth.

5.They NEVER let us down, - further not one standard component failed during our entire trip. See <http://malandlee.com/> for our blog.

**NOTE:** It cost us around \$4500 PER TRIKE to have these and other mods done.It is NOT just the raw cost of the Rohloff's and Schlumpf's themselves. It includes: Re-spoke the wheels with best quality spokes, Tensioners, and cabling are just some of the things used. - Plus of course "quality" labour from "[Quantum Bicycles](#)".

**21 beautifully spaced gears, between 9 -and- 116 gear inches. See pictures above for gear inch ratios**

*(13 tooth Cog will give you 11.5 – to – 145 gear inches)*

The addition of these modifications made our trike's a dream to drive. Absolute simplicity meant no adjustments were ever necessary, unlike *Derailleur gears*.

Please feel free to ask ANY questions, we will answer as honestly as we can– warts n' all.
